COMMENTS	Include Safety precautions and special handling instructions.

GENERATOR CERTIFICATION: I certify that the above named materials are properly classified, described, packaged, marked and labeled and are in proper condition for transportation according to the applicable regulations of the Department of Transportation and U.S. EPA. I further certify that the information contained on the manifest is factual. I understand that the failure to accurately report all information requested by the manifest constitutes a violation of 1979 PA64 and/or PA136. I further understand that this manifest may be used in administrative and court proceedings.	To the best of my knowledge and belief.	
	Generator Signature <i>R. G. Smith</i> ① R. G. Smith, Mgr. Plt. Engr. DT&D	Date Shipped MO. DAY YEAR 08/31/84

HAULER'S CERTIFICATION: I certify acceptance of the above identified wastes for transportation. I further certify that I shall deliver the hazardous wastes, together with this manifest, only to the destination specified by the generator on this manifest. I understand that this manifest can be used in administrative and court proceedings.	Transporter Vehicle I.D. No. No. 1 1397	Transporter Signature <i>R. Wybon</i> ②	Date(s) Received 08/31/84
	Subsequent Transporter Vehicle I.D. No's	Subsequent transporter(s) signature(s) ③	

If the shipment cannot be delivered, describe the reasons for non-delivery.

TSDF CERTIFICATION: I certify receipt at this facility of the above identified wastes and that this facility is licensed to accept those wastes. I also certify that the wastes were accompanied by a manifest properly certified by both the generator and hauler and that this facility is the destination indicated on the manifest. I understand that this manifest can be used in administrative and court proceedings.	TSDF Signature ④ <i>R. Banowski</i> MI D 0 0 9 9 1 0 8 0 5 1	<input checked="" type="checkbox"/> Accepted <input type="checkbox"/> Rejected	Date Received 08/31/84
	Describe any significant discrepancies between manifest and shipment.		

ALL SPILLS MUST BE REPORTED TO THE MICHIGAN POLLUTION EMERGENCY ALERTING SYSTEM AT 800-294-4706, 24 HOURS PER DAY AND THE NATIONAL RESPONSE CENTER AT 800-424-8802

16. GENERATOR'S CERTIFICATION: I hereby declare that the contents of this consignment are fully and accurately described above by proper shipping name and are classified, packed, marked, and labeled, and are in all respects in proper condition for transport by highway according to applicable international and national government regulations.

If I am a large quantity generator, I certify that I have a program in place to reduce the volume and toxicity of waste generated to the degree I have determined to be economically practicable and that I have selected the practicable method of treatment, storage, or disposal currently available to me which minimizes the present and future threat to human health and the environment; OR, if I am a small quantity generator, I have made a good faith effort to minimize my waste generation and select the best waste management method that is available to me and that I can afford.

16. GENERATOR'S CERTIFICATION: I hereby declare that the contents of this consignment are fully and accurately described above by proper shipping name and are classified, packed, marked, and labeled, and are in all respects in proper condition for transport by highway according to applicable international and national government regulations.

If I am a large quantity generator, I certify that I have a program in place to reduce the volume and toxicity of waste generated to the degree I have determined to be economically practicable and that I have selected the practicable method of treatment, storage, or disposal currently available to me which minimizes the present and future threat to human health and the environment; OR, if I am a small quantity generator, I have made a good faith effort to minimize my waste generation and select the best waste management method that is available to me and that I can afford.

16. GENERATOR'S CERTIFICATION: I hereby declare that the contents of this consignment are fully and accurately described above by proper shipping name and are classified, packed, marked, and labeled, and are in all respects in proper condition for transport by highway according to applicable international and national government regulations.

If I am a large quantity generator, I certify that I have a program in place to reduce the volume and toxicity of waste generated to the degree I have determined to be economically practicable and that I have selected the practicable method of treatment, storage, or disposal currently available to me which minimizes the present and future threat to human health and the environment; OR, if I am a small quantity generator, I have made a good faith effort to minimize my waste generation and select the best waste management method that is available to me and that I can afford.

Re-Refiners & Recyclers of Petroleum Products

May 22, 1981

Mr. Daniel Schultz
Department of Natural Resources
Oil & Hazardous Materials Control Section
Box 30028
Lansing, Michigan 48909

Dear Mr. Schultz:

This letter is in response to your letters of April 6, 1981 and May 15, 1981 directed to the undersigned.

The tenor of your May 15 letter is that this company ignored your earlier letter and the issues you raised in that letter. This is not the case, and we wish to set forth certain facts in order to clarify the record:

(1) Subsequent to your March 31 inspection we determined that the material in the oil/water pit was too thick for a vacuum truck and would have to be handled by our loader after it was repaired.

(2) At the time of your March 31 inspection our loader had just gone out of service, and the extent of needed repairs had not yet been determined. It turned out that the engine had been internally damaged to the point that a total rebuild (much more extensive than a standard rebuild) was required. The loader had to be disassembled to work on the engine, and engine repairs included outside machining of the crankshaft, resleeving the block, replacing the oil pump, rebuilding the injectors and fuel pump, together with a standard rebuilding procedure. The loader was back in service the first week of May at about the time of your May 6 visit.

(3) At the time of your May 6 visit the above was discussed with you, and we were led to believe that you understood the reason for the delay and that our progress to that point was acceptable.

(4) We have commenced removal of the material from the two pits. The work on one pit is largely complete, and we expect to complete all the work within the next one to two weeks. Heavy rains these past two weeks delayed commencement of this work, and completion will depend on future weather conditions.

and retained by the Agent.

Carrier's No. _____

RECEIVE, subject to classifications and tariffs in effect on the date of the issue of this Shipping Order,

FROM **CHRYSLER CORPORATION**

the property described below, in apparent good order, except as noted (contents and conditions of contents of packages unknown), marked, consigned, and destined as indicated below, which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed, as to each carrier of all or any of said property over all or any portion of said route to destination, and as to each party at any time interested in all or any of said property, that every service to be performed hereunder shall be subject to all the terms and conditions of the Uniform Domestic Straight Bill of Lading set forth (1) in Official, Southern, Western and Illinois Freight Classifications in effect on the date hereof, if this is a rail or a rail-water shipment or (2) in the applicable motor carrier classification or tariff if this is a motor carrier shipment.

Shipper hereby certifies that he is familiar with all the terms and conditions of the said bill of lading, including those on the back thereof, set forth in the classification or tariff which governs the transportation of this shipment, and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

Dipotassium Phosphate

Technical Grade

Synonyms	Potassium phosphate dibasic. DKP. Dipotassium monohydrogen orthophosphate.
Description	A white, free-flowing, odorless, non-toxic material in powder or granular form.
Grades	powder granular
Standard containers	100 lb multi-wall paper bags 400 lb net fiber drums
Major uses	pH controller and corrosion inhibitor in antifreeze. Ingredient in household and garden fertilizer.
More detailed information	FMC technical data sheet Material safety data sheet
Precautions	None
Sales features and benefits	National distribution. Strong technical service and support systems. Mine own raw materials (phosphorus) which insures stable supply.

December 7, 1993

Dearborn Refining
3901 Wyoming Avenue
Dearborn, MI 48121

Dear Sirs:

The generator, Interlakes Bases, had material disposed of at your facility. The following manifests need to have a change made on them.

MI2748565 06-04-92

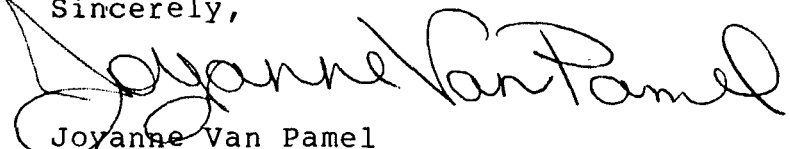

MI3235871 06-21-93

MI3085993 10-12-93

The generator was formally using the EPA I.D. Number MIG 000 024 557. The correct EPA I.D. Number that the manifests should be changed to is MID 985 661 552.

The Michigan Department of Natural Resources will be advised of the changes.

Sincerely,

Joyanne Van Pamel
Secretary
